## Frontend Engineer

With over **16 years** of experience in various web technologies, I am passionate about building products that address real customer problems. It's a bonus if I can also be a user of the product, as it deepens my connection to the solution. I place a strong emphasis on crafting exceptional UI/UX.

Aug 2022  
Present

### Frontend Engineer @ Amazon

Currently serving as a Frontend Engineer in the Workforce Optimization team at Amazon Fulfillment Technologies. Responsible for creating and maintaining multiple UI packages for Labor Planning Services, enabling the visualization of plans across various time granularities.

Jan 2020  
Aug 2022

### Frontend Engineer @ Coefficient Works Inc.

Joined as one of the early engineers at this Silicon Valley startup, building the front end of the Google Sheets add-on from scratch. Collaborated closely with the founders to create front-end specifications, develop features, and write test cases, playing a key role in shaping the product.

Apr 2016  
Dec 2019

### Principal Engineer @ Pramati Technologies

Led the front-end team in designing, developing, and testing components for multiple clients, working within a micro-services architecture. Oversaw team development, providing mentorship, and conducting code reviews to ensure quality and consistency across the project.

Jan 2013  
Apr 2016
